BATTERY BOXES, TOOL BOXES, AND KITS

KENNEDY TOOL KIT

This Combination Case is designed for use both in the shop and for outside work. It is equipped with two trays. The upper tray is three inches deep and has a handle which turns down into tray so that the tray may be easily removed from the Case and carried. The lower tray is divided into compartments for bits, drills and small parts. Plenty of room in bottom of Case for other equipment.

No. 716—Size 16x7x9 inches ..... Each $6.50

KENNEDY TOOL KITS

The Kennedy Kit, an all steel grip that will not wear out. For carrying tools, clothing or equipment. Looks like a traveling bag and is no heavier, with tray divided into small partitions for carrying drills, bits, small parts, etc. Tray is made of lightweight steel 1¾ inches deep and rests on ledges at top of case. Contents cannot spill out if bag is loaded, as flat bottom will prevent overturning.

No. 116—16x9x11-inch high ..... Each $5.50
No. 118—18x10x13-inch. high ..... Each 5.75

KENNEDY MACHINISTS KIT

The material and construction of this case is such that it will not swell, warp, crack, split, or go to pieces. Reinforced at all points of strain. Drawers run on separate tracking and are rigid and slide easily into place. Front drops and slides under lower drawer when open. Fastens at bottom and securely locks to upper lid when closed. Electric welding and inner corrugation in lid. Will carry heaviest equipment.

No. 518—Size 18x8x12½ inches .... Each $17.50
